**Suggestions:**

Perhaps an extension of the consultations in suitable cases: *patients are reminded to ask for a longer appointment if they need it, there are always opportunities to book longer appointments a week ahead.*

Some late appointments after work. 6pm? : *we open on a Saturday Morning to try to see anyone who can not get here on a weekday*

Coffee machine and water: *We would not like to compete with other local coffee shops and businesses, and there is always water available if anyone would like it, they just need to ask. We would not like to introduce plastic cups but would suggest patients consider the environment and bring a drink with them, we do not anticipate patients waiting too long at the surgery.*
